

*"Life is a series of experiences, each one of which makes us bigger, even though sometimes it is hard to realize this. For the world was built to develop character, and we must learn that the setbacks and grieves which we endure help us in our marching onward."*

Henry Ford

*"By three methods we may learn wisdom:  
First, by reflection, which is noblest;  
second, by imitation, which is easiest;  
and third, by experience, which is the bitterest".*

Confucius

# SKILLS DEVELOPMENT PROGRAM

Using role-plays  
as teaching strategy

# Overview

Using role-plays as a teaching strategy increase social interaction among students in the classrooms, they become close to each other, which creates harmony among students. According to Piaget, this role-play opportunity provides students stimulus to nurture their thinking, and experiential learning. Through role-plays, students get involved into meaningful process of reviewing their own beliefs, cultural practices, customs, and traditions and get to know different perspectives while acting out various roles prevails in our society.

In this two-day workshop, participants will learn different categories of role-plays and discuss the effective strategies for designing role-play activities for different occasion for the students in their classrooms

## Contents:

- Role-play leads towards experiential learning
- What, when and how to conduct role-plays
- Different categories of role-plays
- Materials and props use during role-plays
