Overview

The quality of leadership practices in a school can make a significant difference to the learning and achievement of students. 21st Century school leaders enthusiastically face the challenging task of preparing young minds for the future, and they think strategically about the goals and systems that will support this task.

There are a number of different traits, skills, mind-sets, and habits that define 21st Century leaders. If you are looking for education leadership courses to get your school leadership team on the right path, then this **Certificate Course** on '[21st Century School Leadership](#)' offers you personalised leadership development for yourself and various school teams you are leading. This course will enable you to critically evaluate where your school stand today and how to bridge the gap while bringing necessary changes by designing various development and improvement plans.

The focus of the workshop will be on facilitating school leaders in meeting the demands of 21st century skills for learners and devising authentic plans for change in their own schools.
