

Certificate in Early Childhood Care & Education

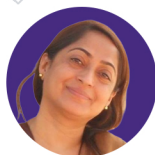

Program Overview

This intense 50-hour course in Early Childhood Care Education is a practical activity-based certificate course that aims at embarking upon revisiting the role of early years teachers. All the training participants will study the recently developed curriculum framework of ECCE which caters to children's holistic development.

Learning Outcomes

- . Understanding 'Children Development and Learning'
- . Brain Development in Early years
- . Setting the learning environment 'Learning Corners'
- . Early Childhood Curriculum and Pedagogies
- . Element of 'Play & Inquiry'
- . Assessment in the Early Childhood Classrooms
- . Home School Partnership

Trainers Profile

Naheed Wasi

For the last 30 years, I have been involved in the field of Early Childhood Care & Education (ECCE) in varied capacities, be it running a preschool setting or teaching Masters level students at universities. I have completed my M.Phil in Education with a thesis focusing ECCE, graduated from Association Montessori International (AMI) and also completed ECCE Course from Turkey.

Who Should Attend

Early childhood practitioners, early years school leaders, individuals aspire to join teaching, Montessori teachers from the government and/or private sector and parents.

 9:00 am to 1:30 pm
