

Certificate in Early Childhood Care & Education

Program Overview

Every child is unique and has a different mind, varied aptitude, and interest. Children expect to seek autonomy to explore the world around them. Early year's education enables children's holistic development, for the purpose varied approaches are used to enable children to develop age-appropriate cognitive, psychological, emotional, social, moral and physical development.

This intense course in Early Childhood Care and Education is a practical activity-based certificate course that aims at embarking upon revisiting the role of early years teachers to renew their learning about how children learn and how to engage them in learning using modern techniques which can easily be contextualized in their learning setting.
