

IFRS Update Program

Program Overview

This two-day training focuses on the key IFRS standards that every accounting professional should know. We'll cover the major changes from the past two years and dive into some of the big challenges that industries face. By the end of the program, participants will have a clear understanding of the latest IFRS updates and how they apply in real-world situations.

Learning Outcomes

- Understand the most recent amendments and additions to the IFRS standards from the last two years.
- Apply the latest IFRS standards effectively in their daily accounting practices and reporting procedures.
- Comprehend major industry-specific issues related to the implementation of new IFRS updates.
- Make informed financial decisions and advise stakeholders on IFRS compliance matters.
