

Masterclass on

Report Writing for Internal Auditors

The program equips participants with report writing and communication skills which form the most significant and critical component of any internal audit consulting. An effective report assists Internal Auditors to build strong and trusting partnership between the organisation's executive senior management and the Internal Audit team.

We take experiential learning approach. The program has been designed to include six group activities for bite sized concepts and one large case study to allow participants to apply all the concepts they have learnt during the session. Our facilitators will be available during all sessions for ongoing consultation with participants.

Who should attend?

Internal audit managers, quality assurance managers, compliance managers, IT auditors, internal control officers, risk managers and Head of Internal Audit Group, who are looking for more influential and effective ways to strengthen their communication channels with their senior executive management and operational stakeholders in their organisation.

Learning Outcomes

- Understand relevant requirements of IIA standards
- Best practices governing internal audit reporting
- Comprehend what an Audit Committee expects
- Apply drafting skills to audit observations/issues in a concise manner
- Understand various segments of an audit report, their users and structure
- Know the do's and don'ts of audit report drafting (linguistic aspects)
