Air Ticketing

Program Overview

This comprehensive program blends aviation theory with hands-on GDS Airfares and Ticketing, primarily using Travelport-Galileo. Covering essential topics like world geography, time zones, and IATA operations, it equips students to proficiently navigate the travel industry, from understanding fares and schedules to issuing tickets, ensuring readiness for roles in travel agencies or airlines.

Learning Outcomes

1. Students are gain substantial understanding of the travel-trade and are eligible to work in any travel agency, destination management companies and/or Airlines.

2. Integrating their academic qualifications, they can encash their learning not just in Pakistan, but globally.

3. They can work as entrepreneurs and set up their own travel-trade businesses with unique concepts.
