# Role of a Teacher in Child Development

## Course Objective

The objective of this course is to give additional help to pupils who, for one reason or another, have fallen behind the rest of the class. This course aims to empower parents and educators in providing every child with a unique scaffold on which to develop their concepts. Moreover, this course aims to target the challenges beyond the academic realm and saliently focuses on social, psychological, and emotional needs of young learners through a variety of techniques. This course is a reminder that every child succeeds if and only if they are given the "right" mix of encouragement, understanding, nurturing and the correct mode of learning.

## Learning Outcomes

- \* Understand and apply the shared knowledge in classroom.
- \* Analyze and evaluate the strategies to manage the classroom.
- \* Create a safe environment for their pupils
- \* Define the term "Learning Problems".
- \* Distinguish between different types of Learning Problems.
- \* Provide basic support to the students with Learning Problems.
- \* To heal an emotionally-disturbed child
- \* To manage challenging behavior in class
- \* Understand the importance of giving responsibilities in early years of childhood
- \* To develop confidence in students

## Course Breakup
